CONTENT STRATEGY

Content Strategy Matrix

Funnel Stage	Content Type	Objective	Platform
TOFU	Blogs, reels	Awareness	Website + Instagram
MOFU	Guides, webinars	Lead capture	Email + Website
BOFU	Testimonials, offers	Conversion	Landing page

This matrix ensures targeted content delivery across the customer journey.

AI Usage Strategy – NutraCare

AI-Enabled. Human-Governed. Outcome-Focused.

Role of AI in NutraCare

NutraCare uses AI to improve marketing precision, website performance, and personalization, while ensuring all clinical decisions remain human-supervised.

1. AI in Marketing & Customer Acquisition

Tools Used:

- ChatGPT – Content drafting & campaign ideation
- Ubersuggest / Keyword Planner – High-intent keyword research
- Canva AI – Ad creatives & social media design

2. AI in Website & Conversion Optimization

- Emergent – AI-powered website structure & landing page generation
- Google Analytics – Behavior & funnel tracking

3 .AI in Customer Experience

AI-assisted meal personalization logic

- Chatbot for basic recovery & diet FAQs
- Engagement tracking for retention

POEM Framework – NutraCare

Paid Media (Awareness & Leads)

- Drive high-intent recovery patients & caregivers

 Google Search Ads
(recovery diet, post-surgery meals)

 Meta Ads targeting caregivers

 Retargeting website visitors

→ Drive traffic & acquire leads

Owned Media (Trust & Conversion)

- Build trust & convert leads

 NutraCare Website
(conversion-focused)

 Educational blogs on recovery nutrition

 Email & WhatsApp follow-ups

→ Nurture leads to subscriptions

Earned Media (Credibility & Growth)

- Increase credibility & authority

 Patient Testimonials & ratings

 Doctor recommendations

 Social Shares, Influencers & Word-of-mouth

→ Boost brand trust & reputation

 Paid attracts.

 Paid attracts.

 Owned builds trust.

 Earned builds trust.

Leveraging all three media types for a comprehensive digital presence.
