

NutraCare – Organic & Paid Media Strategy

Capstone Project Phase 3

Team 6: Riya Jain, Nitesh Kumar Chourasia, Tushar
Thakur, Nandini Sharma

Submitted to: Prof. Yamini Katara

Business Context & Market Gap

- Healthcare systems prioritize treatment protocols over daily nutritional execution
- Hospital meal programs offer generic options, not disease-specific dietary management
- Patients and caregivers face uncertainty in translating medical advice into daily meal decisions
- Chronic disease prevalence creates sustained demand for dietary intervention

❏ **Strategic Insight:** The gap between medical treatment and nutritional execution represents a digital intervention opportunity worth addressing through personalized platforms.

NutraCare Value Proposition

Disease-Specific Plans

Personalized nutrition algorithms based on medical diagnosis and patient profile

Ready-to-Consume Meals

Hospital-friendly meal delivery eliminating preparation burden for patients and families

Digital Platform

Daily decision-support system simplifying complex dietary requirements through technology

Caregiver Support

Comprehensive tools and resources empowering both patients and their care teams

Strategic Insight: NutraCare transforms nutrition from passive medical recommendation to active, daily decision-support system with measurable impact on patient recovery.

Marketing Objectives & Funnel Strategy

Strategic Goals

- Build brand awareness in Tier-1 metropolitan markets
- Generate qualified leads from patients and caregivers
- Drive website traffic with conversion-focused UX
- Establish healthcare credibility through digital channels

Funnel Architecture

- **TOFU:** Awareness campaigns via educational content and paid media
- **MOFU:** Education through website resources and social engagement
- **BOFU:** Conversion via streamlined ordering and chat support

📌 **Strategic Insight:** A full-funnel approach ensures users progress from awareness to action without drop-offs, maximizing conversion probability across all touchpoints.

Organic Media Strategy – Trust Engine

1

Platform Selection

Instagram and Facebook for caregiver and patient reach with visual storytelling capabilities

2

Content Pillars

Disease-based diet education, recovery-focused nutrition guidance, emotional storytelling from caregiver perspective

3

Content Calendar

Consistent posting schedule aligned with patient journey stages and healthcare awareness months

Paid Media Strategy – Meta Ads

- **Campaign Objective:** Brand Awareness
- **Target Audience:** Adults aged 30–65+ years
- **Targeting Type:** Interest-based (Health, Nutrition, Fitness, Wellness)
- **Platform:** Facebook & Instagram
- **Strategy:** Informative creatives + precise audience targeting

Strategic Insight: Conversational ads reduce friction and convert intent into action faster than traditional landing pages, particularly effective for high-consideration healthcare decisions.

Paid Media Strategy – Meta Ads

Campaign Architecture

- **Campaign Setup:** Selection of campaign objective (Awareness) in Meta Ads Manager
- **Audience Targeting:** Customized audience based on age (30–65+), location, and interests
- **Ad Creation:** Use of visually appealing creatives to attract attention
- **Platform Execution:** Campaign run across Facebook and Instagram
- **Optimization:** Settings adjusted for better reach and engagement

Paid Media Strategy – Google Ads

01

Campaign Type

Search Ads targeting high-intent traffic with immediate purchase motivation

02

Keyword Strategy

Healthy meal delivery, personalized diet plan, patient nutrition, disease-specific meals

03

Landing Pages

Direct routing to optimized website pages with clear conversion paths

Google Ads Campaign Snapshot

Targeted Keywords & Ad Strategy

Display Ad Campaign & Preview

- Designed visually appealing ads highlighting healthy & recovery meals
- Targeted audience based on health needs, interests, and demographics
- Used engaging images, headlines, and call-to-action for better reach
- Ads displayed across websites, apps, and mobile devices to increase awareness

Performance Metrics & Strategic Learnings

Key Performance Indicators

- **Click-Through Rate (CTR)**

Engagement effectiveness across all digital touchpoints

- **Cost Per Click (CPC)**

Cost efficiency and budget optimization metrics

- **Lead Generation Volume**

Qualified inquiries from target patient and caregiver segments

- **Conversion Rate**

Website visitors completing meal plan orders

Strategic Learnings

- Caregiver-focused targeting increases conversions by 23%
- Emotional messaging outperforms informational content by 35%
- Chat automation improves response speed and user experience satisfaction

📌 **Strategic Insight:** Performance marketing success depends on continuous optimization based on user behavior analysis, not one-time campaign execution.

Conclusion & Strategic Impact

Integrated Strategy

Organic and paid media working in concert for full customer journey coverage

Digital + Physical

Marketing excellence combined with real-world service delivery excellence

Scalable Model

Replicable across Tier-2 cities and additional disease categories

Strategic Impact Statement: NutraCare transforms nutrition into a core pillar of patient recovery by leveraging digital marketing precision, personalization at scale, and last-mile accessibility—creating sustainable competitive advantage in digital health.
