CRM Implementation – NutraCare

Streamlining the Patient Journey with Freshsales CRM

- ✓ Freshsales CRM is used to manage customer data and interactions centrally.
- ✓ A customized pipeline was created based on NutraCare's patient journey.
- ✓ Deals represent each patient (e.g., Diabetes Patient – ₹2000).
- ✓ Leads are moved across stages to track conversion and identify bottlenecks.

“This helps NutraCare track customer progress and improve conversion efficiency.”

Customer Segmentation Strategy

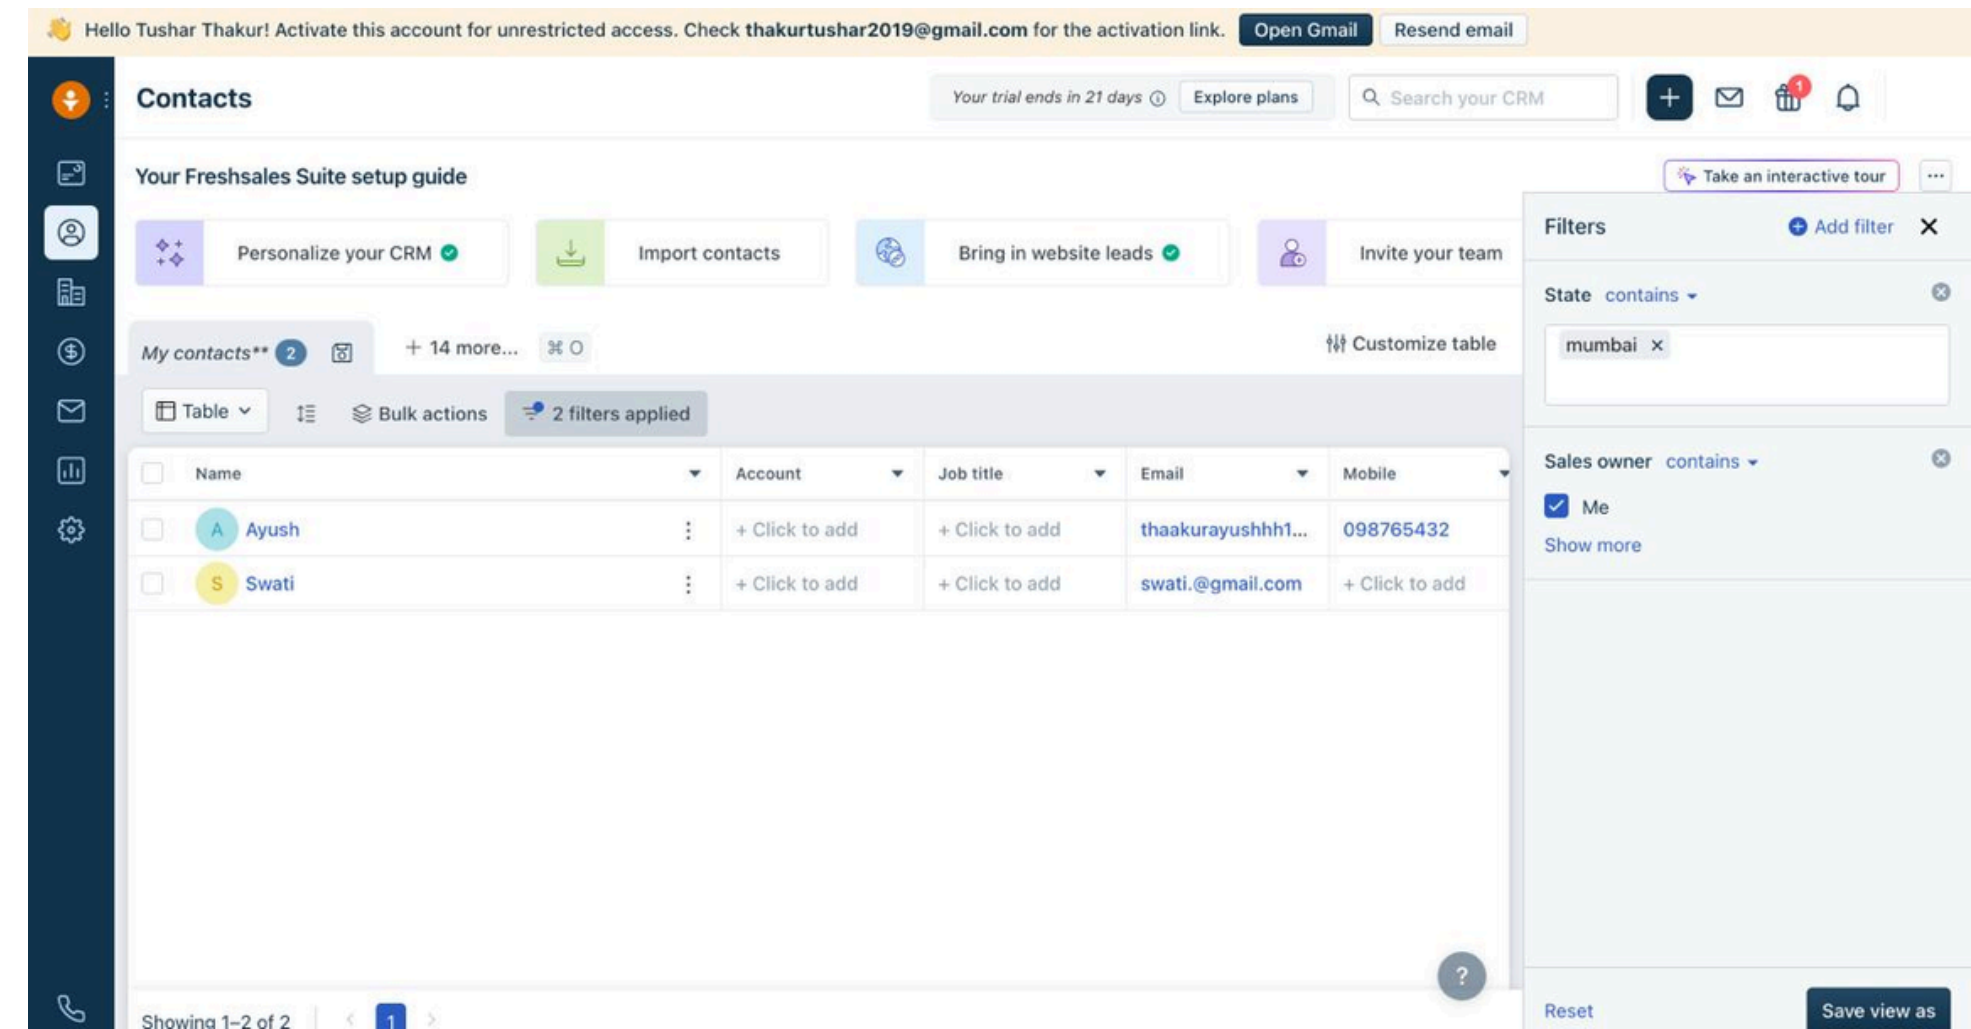

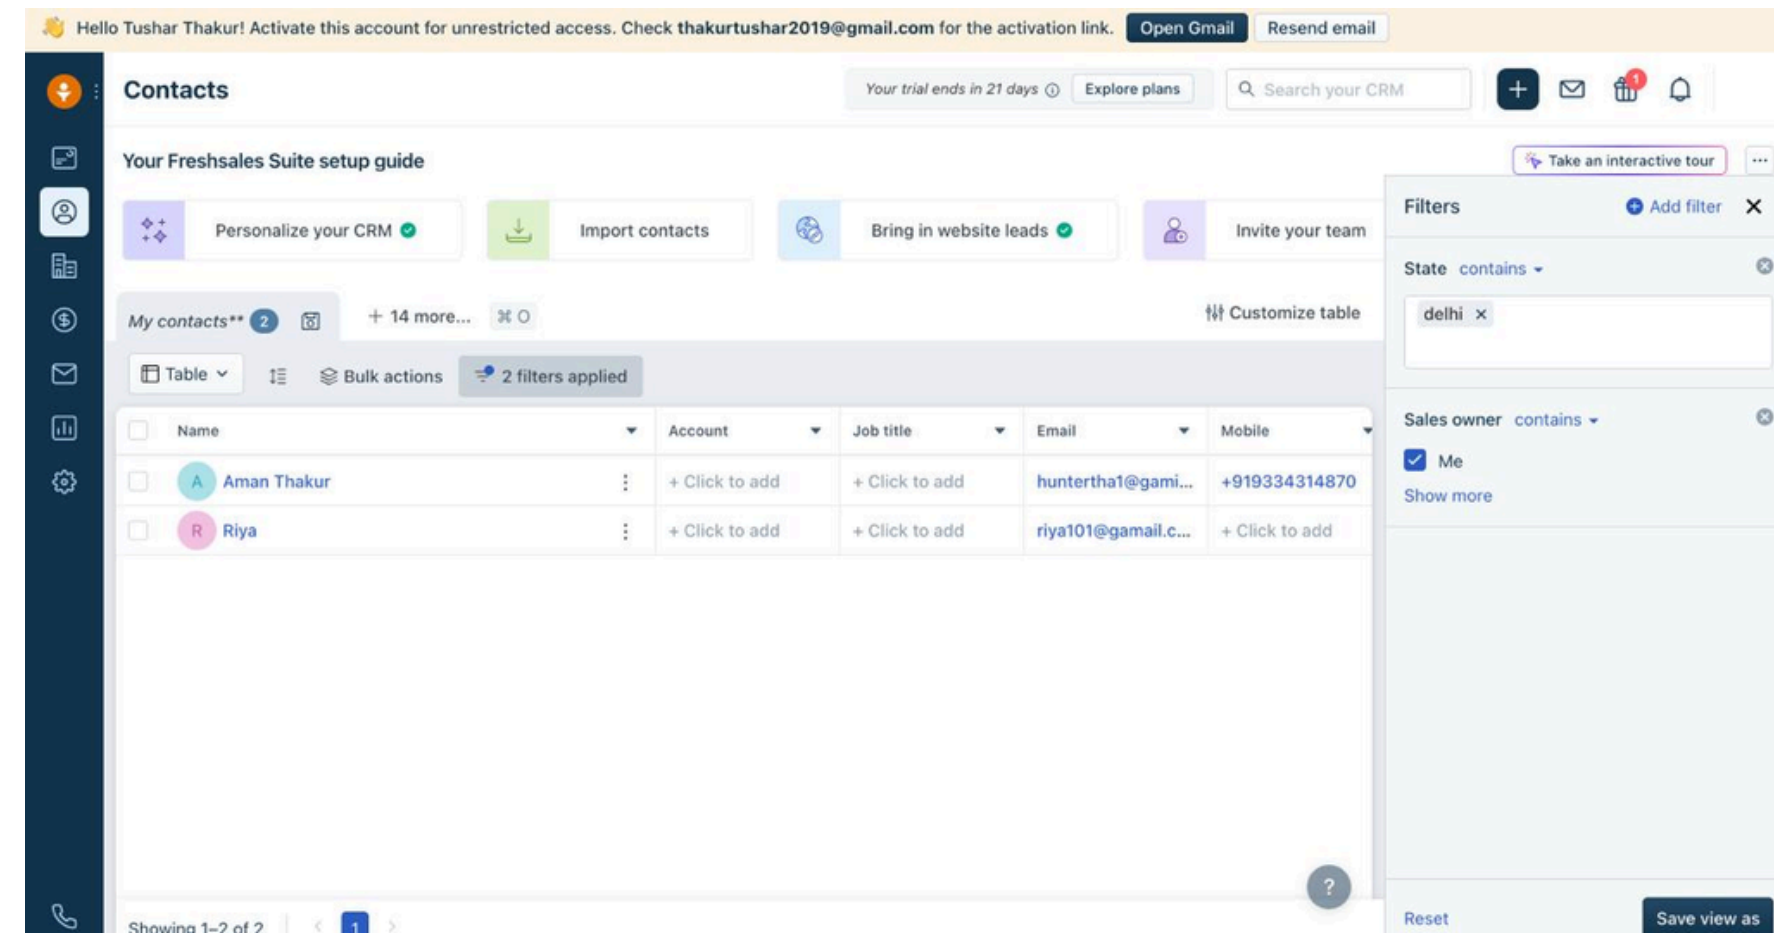

Precision Targeting for Personalized Nutrition

- ▼ Customers are segmented using CRM filters and tags for targeted outreach.
- 📁 Segmentation is based on disease (Diabetes, BP) and location (Delhi, Mumbai).
- 🎯 Filters help in targeting specific customer groups with personalized diet recommendations.
- 📈 Segmentation enables personalized diet recommendations and targeted communication.

“Segmentation enables personalized diet recommendations and targeted communication.”

Location-Based Customer Segmentation

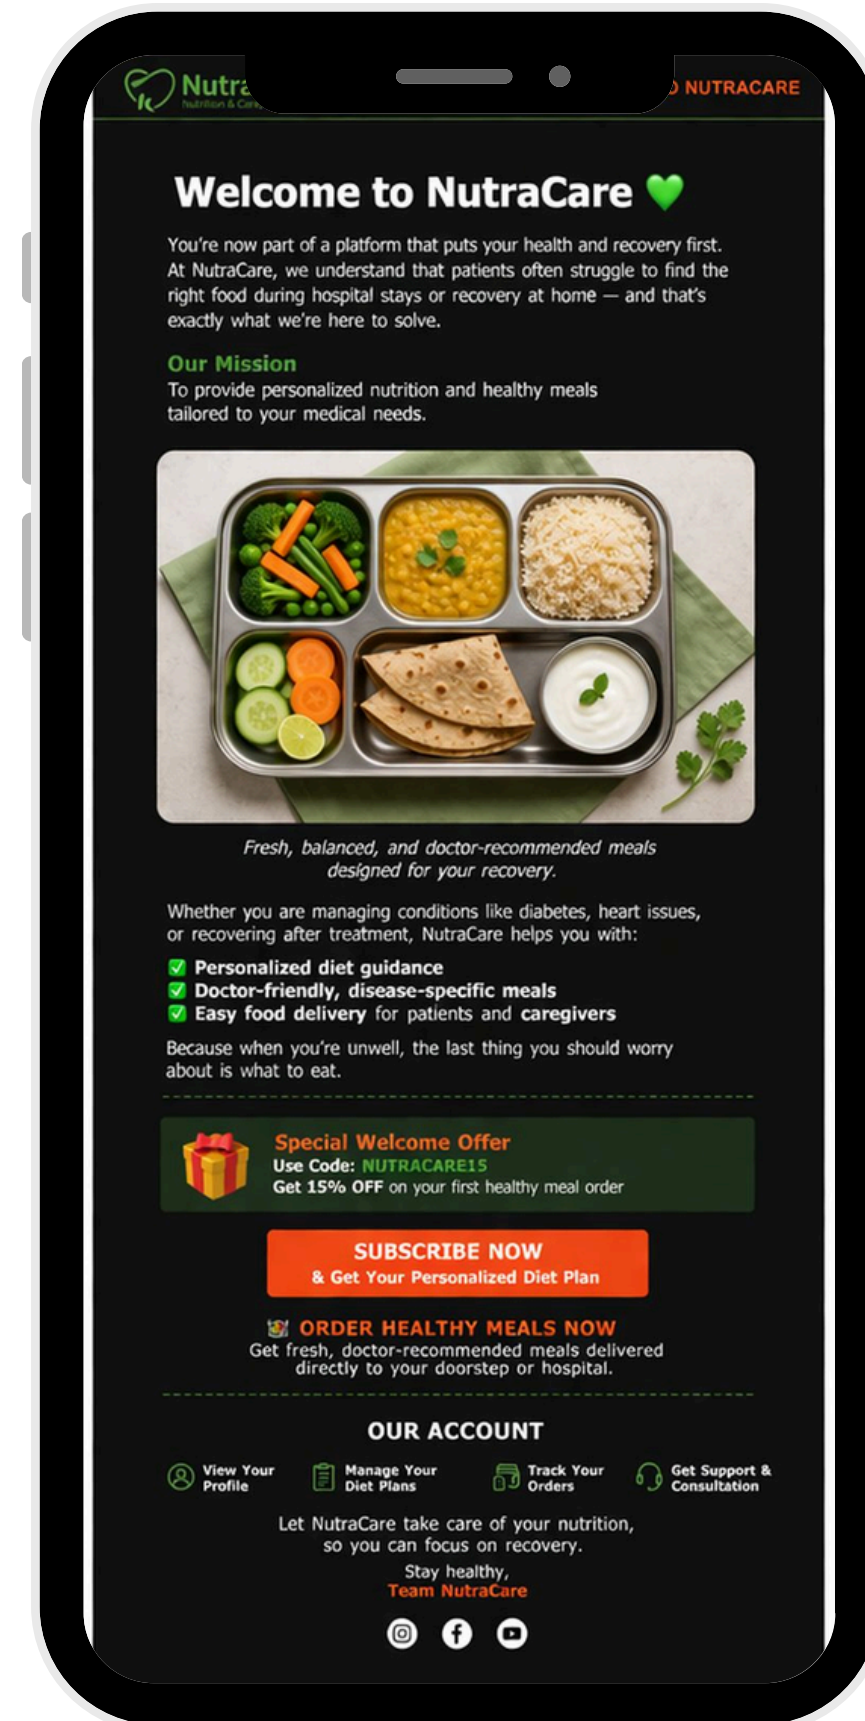

Location-based segmentation helps NutraCare deliver personalized services and optimize operations across different cities.”

Email Marketing & Engagement

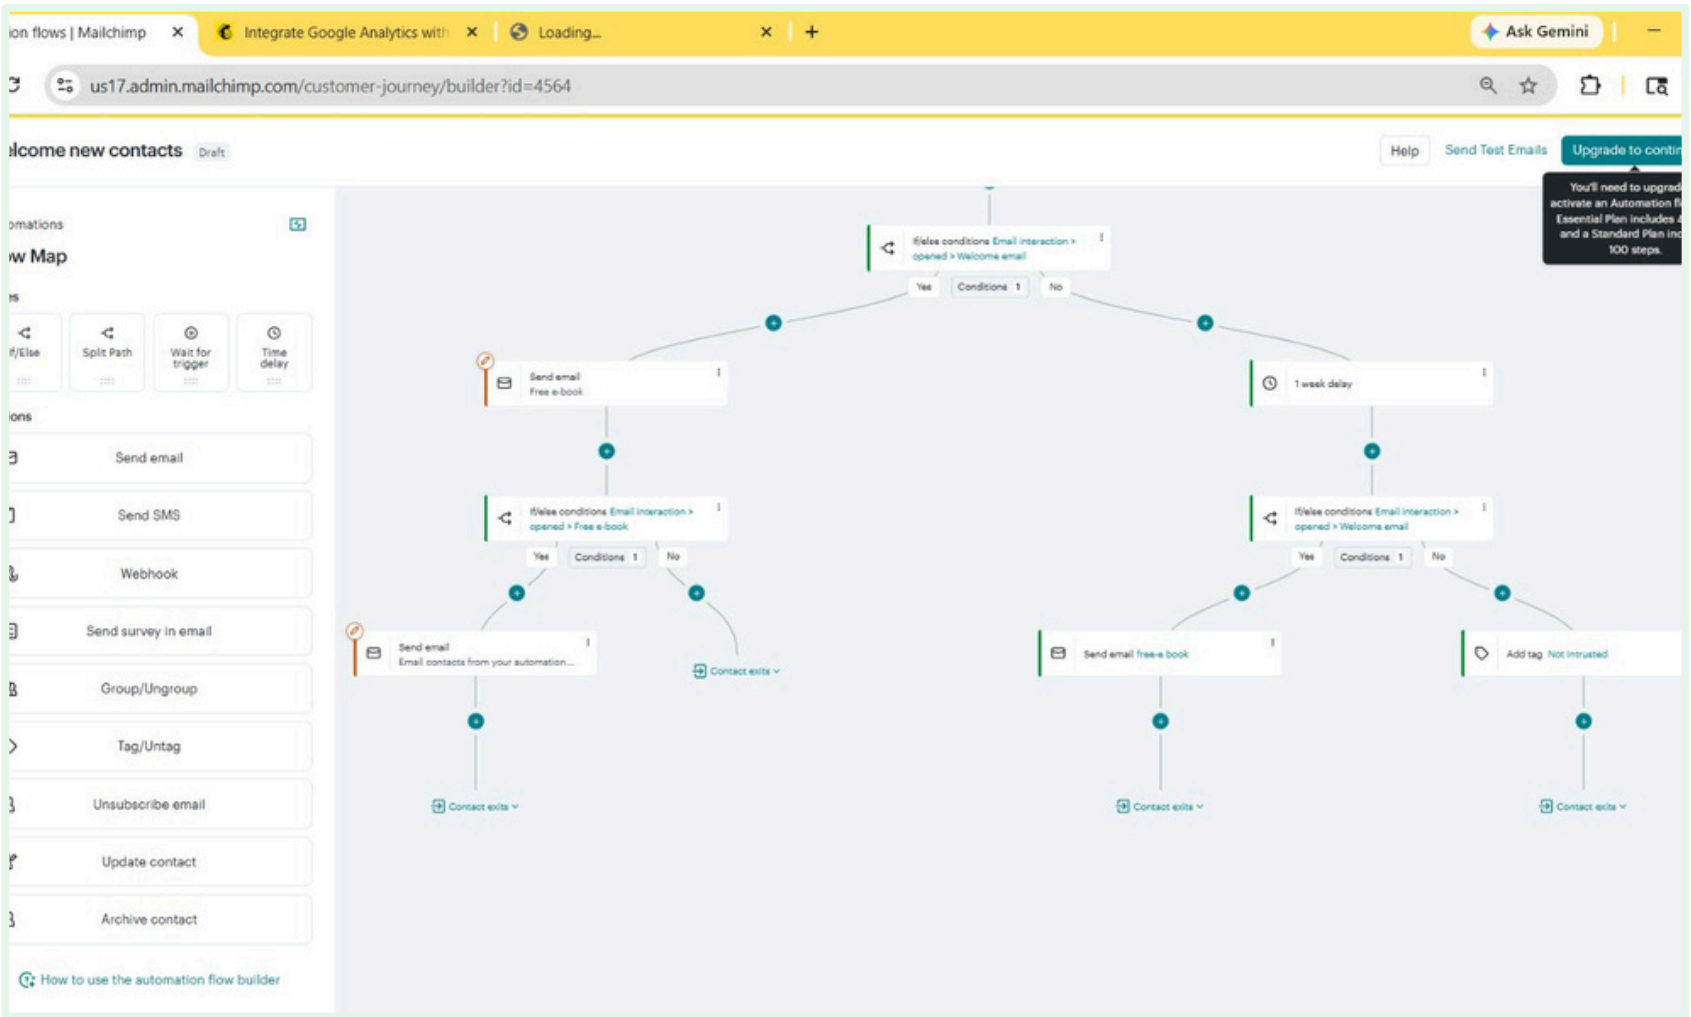

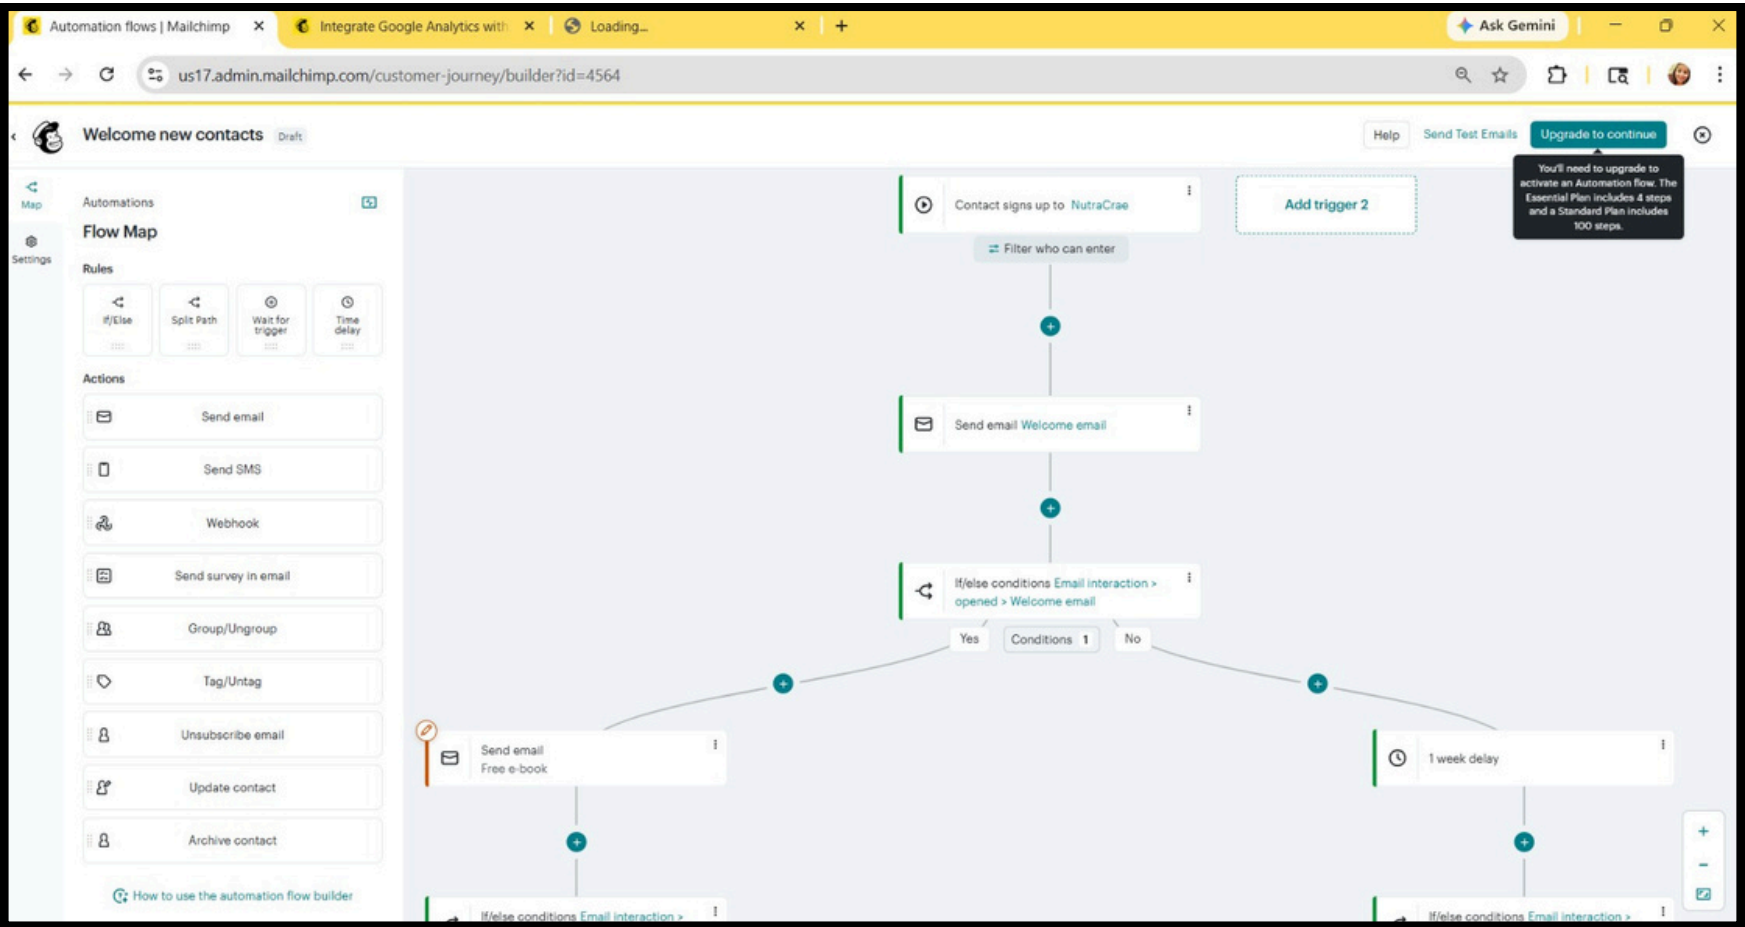

Building Trust Through Automated Lifecycle Campaigns

- ✉ A welcome email campaign was designed for new users to build trust.
- 🎯 Highlights include personalized nutrition and disease-specific diet support.
- 👉 Strategic Call-To-Actions: “Subscribe Now” and “Order Healthy Meals”.
- 📈 High-impact promotional offer: 15% discount for new subscribers.

“Email marketing helps in building trust and encouraging customer action.”

Email Automation Workflow – Lead Nurturing Strategy

Chatbot & Conversational Commerce

24/7 Intelligent Support for Patient Wellness

-  **Instant Support:** AI-driven chatbot providing immediate assistance to patients.
-  **Guidance:** Helps users with diet recommendations and food guidance.
-  **Seamless Ordering:** Direct interface for meal ordering and subscription management.
-  **24/7 Availability:** Round-the-clock support with rapid response times.

“Conversational commerce bridges the gap between information and action.”

SAMPLE INTERACTION FLOW

I have diabetes. What should I eat?

I recommend fiber-rich foods and lean proteins. Would you like a personalized diet plan?

Yes, please.

Great! I've generated your plan. You can now order your first week of healthy meals here.
